in LinkedIn Profile

CORE COMPETENCIES

- Full Stack Web Development
- Database Management
- UI/UX Collaboration
- Complex Problem Solving
- Project Management
- Software Proficiency
- Team Leadership and Mentoring
- Agile Development Methodologies
- Continuous Learning and Innovation
- Third-party API Integration

EDUCATION

Computer Science
Ashkelon Academic College
2020 – 2023

CERTIFICATES

Full Stack Web Specialization Certificate Course
INT College 2022 – 2023

TECHNICAL SKILLS

- CSS / SCSS
- JavaScript
- TypeScript
- React
- React Native
- Flutter
- Node.js
- MongoDB
- SQL
- Software Visual Studio Code
- WebStorm
- Android Studio
- MySQL

LANGUAGES

Hebrew: Native, **English:** Proficient

PROFESSIONAL PROFILE

Highly adaptable and goal-oriented Computer Science professional with a passion for web development. Possessing a strong mathematical mind, I excel in handling complex tasks and quick adaptation to new materials and software. My love for the field drives my motivation to succeed. As a Full Stack Web Specialist, I have completed an internship course in web development alongside my Computer Science degree. My latest achievement includes creating "Workie," an end-to-end system for temporary jobs, integrating advanced security features and Facebook/WhatsApp-style chats. Proficient in CSS/SCSS, JavaScript/TypeScript, React, React Native, Flutter, Node.js, MongoDB,and SQL.

WORK EXPERIENCE

Workie   **2022 – Present**
Creator

- Developed and implemented end-to-end full-stack web application "Workie" using MERN stack.
- Designed and integrated features for responding to temporary job opportunities via Telegram and WhatsApp groups, including waitressing positions.
- Implemented Facebook/WhatsApp style chats, combining posts, ratings, sorting, and personal profiles with a strong emphasis on security.
- Created a detailed characterization document and UI using Figma.
- Successfully addressed the issue of limited temporary job websites that mainly focus on serious jobs requiring interviews or degrees.
  (Note: The project is currently under development and will go live soon in Cobb.)
- Spearheaded the development of responsive and visually appealing web applications using a wide range of technologies, including CSS/SCSS, JavaScript/TypeScript, React, and React Native.
- Demonstrated expertise in cross-platform mobile app development by leveraging technologies such as Flutter and React Native, resulting in streamlined user experiences and improved client satisfaction.
- Utilized Node.js to architect and implement robust back-end solutions, ensuring efficient data handling and smooth application functionality.
- Designed and maintained databases utilizing MongoDB and SQL, implementing efficient data models and optimizing queries for improved performance.
- Collaborated closely with UI/UX designers to transform wireframes and design mockups into fully functional web and mobile applications, maintaining visual consistency and user-centric design principles.
- Contributed to the optimization of application performance through thorough code reviews, identifying and resolving bottlenecks and enhancing overall system efficiency.
- Led a team of junior developers, providing mentorship and guidance, and conducting regular code reviews to maintain code quality and adherence to best practices.
- Played a key role in requirement gathering and project scoping, ensuring accurate estimation of development timelines and resource allocation.
- Actively participated in agile development processes, including daily stand-up meetings and sprint planning, resulting in timely project deliveries and improved team collaboration.
- Demonstrated strong problem-solving skills by promptly addressing bugs, issues, and feature requests, ensuring a seamless user experience.
- Actively sought opportunities for continuous learning, staying up-to-date with the latest industry trends and incorporating emerging technologies into development projects.
- Collaborated with cross-functional teams to integrate third-party APIs and services, expanding application functionality and improving overall user satisfaction.
